

Bulletin 9: 13 September 2022

Ringling for the Queen and the King

It is lovely to see such humility and pride from ringers around the Guild, and nationally, marking the passing of HM Queen Elizabeth and the proclamation of HM King Charles.

Please remember to submit your ringing to [Bellboard](#) and then tag the occasion by selecting the appropriate activity ('Mark in memoriam', or "Ringling for the Proclamation") on your performance's edit menu (denoted by a pencil icon).

If you have any sound clips or videos of your ringing for these events, please send them direct to Juliacater1970@yahoo.co.uk. It would be nice to build up a memento from across the Guild of our activities.

A personal reflection from the Central Council weekend

Chris de Cordova has kindly written an insider's view on what happened at the annual Central Council AGM which took place a couple of weekends ago. [Take a read](#) to see what goes on at a national level at what is becoming an annual festival of ringing and national decision making.

Upcoming.....

Surprise Major practices: September and October

Due to the circumstances, we have decided to cancel this month's surprise major practice at Carlisle, which was due to take place Saturday 17 September. The next practice will be on the third Saturday in October, 15th, at Wigton. 16:00 - 17:30 as usual.

Open ringing in the west of the Guild: September and October

We have sadly also decided to cancel the ringing workshop which had been planned for the morning of Saturday 24 September at Moresby due to low numbers - presumably relating to holidays and other ringing commitments. However, the general open ringing **WILL** go ahead in the afternoon with focus methods of Reverse Canterbury and St Simon's Triples. More information can be found on the events page of our [website](#).

Please also bookmark the afternoon of 22 October for the same open ringing at a venue to be confirmed.

Although these events are open, it would be helpful to confirm attendance to Gareth Evans please (martin.evans5@sky.com, phone 01900824647). Also, Gareth would as always, like to hear of any ideas you have for further training workshops.
